

INTIMIDATOR™ 21XP

Equipped with Kesla Loader

The Intimidator 21XP is the **ultimate hand-fed chipper**. With a 21" diameter chipping capacity, it equips tree care professionals with the tools to tackle even the biggest takedowns and clearing jobs that other companies can't handle. The Intimidator 21XP combines big horsepower with an **unstoppable feed system** and a chipping capacity approaching two feet in diameter, yet it's still **easy to maneuver** through suburban neighborhoods for jobs large and small.

MAXIMIZE YOUR PRODUCTION

The Intimidator 21XP easily handles limby material with its chipper's large throat opening and Bandit's proven Slide Box Feed System. This system features powerful dual horizontal feed rollers 32" wide by 10- 5/8" in diameter, powered by 63.9 CID hydraulic motors. The feed rollers are positioned within inches of the chipping knives, effectively controlling even the wildest trees and branches. This reduces trimming time and labor costs while increasing production.

MAXIMIZE YOUR UPTIME

The Intimidator 21XP has a powerful drum reinforced with internal baffles. The rugged construction and heavy-duty components throughout the Intimidator 21XP help ensure long life and trouble-free performance. We realize what it costs when a chipper is down, and though we can't eliminate all downtime, we do our best to minimize it. That's why maintenance items are positioned for easy access.

FEED WITH EASE WITH A KESLA LOADER

Equip your Intimidator 21XP throws chips with a powerful remote control, extending Kesla loader. Pick up, move and feed material directly into your chipper from a remote location, while controlling all functions of the chipper from a radio remote control.

TACKLE THE BIG JOBS

The large 37" diameter drum allows much of the material to be chipped on the bottom half of the drum, with the grain of the wood like a disc-style chipper. The material is chipped using less energy and with less vibration, maximizing fuel economy and reducing maintenance.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless of the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

INTIMIDATOR™ 21XP FEATURES

- **Rope/Line Shear Device (standard)**
Provides an improved chance that rope or lines inadvertently entering the chipper may be cut
- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
